

LAB ASSIGNMENT 1: SERVLET -3 - CSC584

1. Developing the Add Form View Servlet

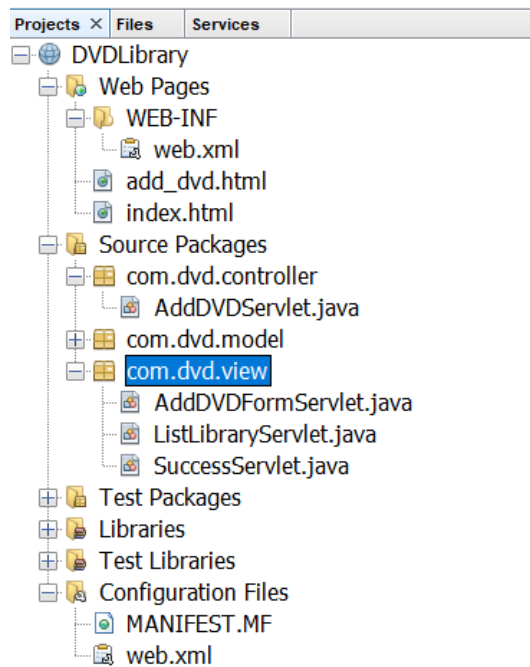

Create a java servlet using following characteristic:

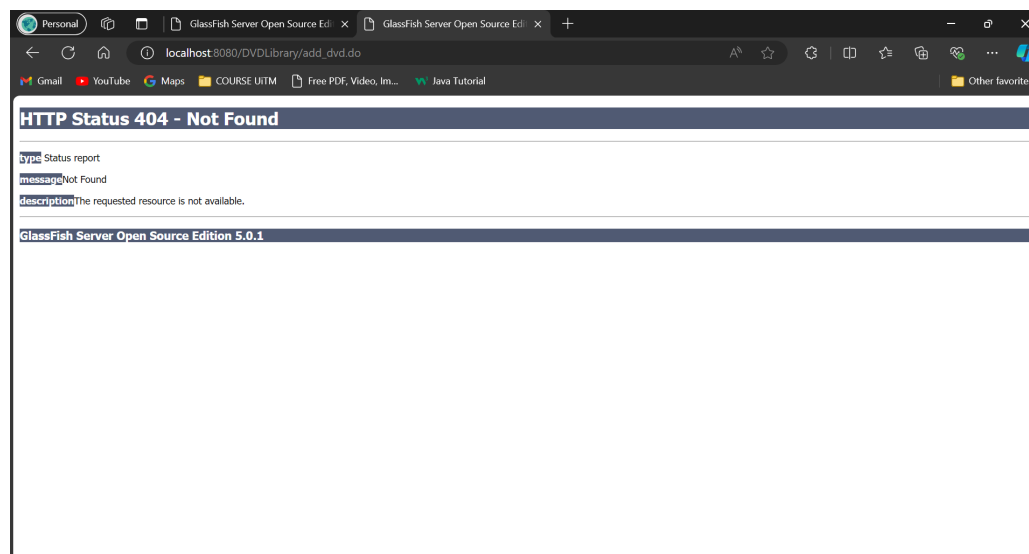

The screenshot shows a web browser window displaying a form titled 'Add DVD Servlet'. The form is located at the URL 'localhost:8080/DVDLibrary/add_dvd.view'. It contains the following fields and controls:

- 'Title:' followed by a text input field.
- 'Year:' followed by a text input field.
- 'Genre:' followed by a dropdown menu currently showing 'Drama' and a text input field for 'or new genre:'.
- A 'Submit' button at the bottom left of the form area.

2. Modify the AddDVDServlet Servlet & 3. Remove the ErrorPageServlet Servlet

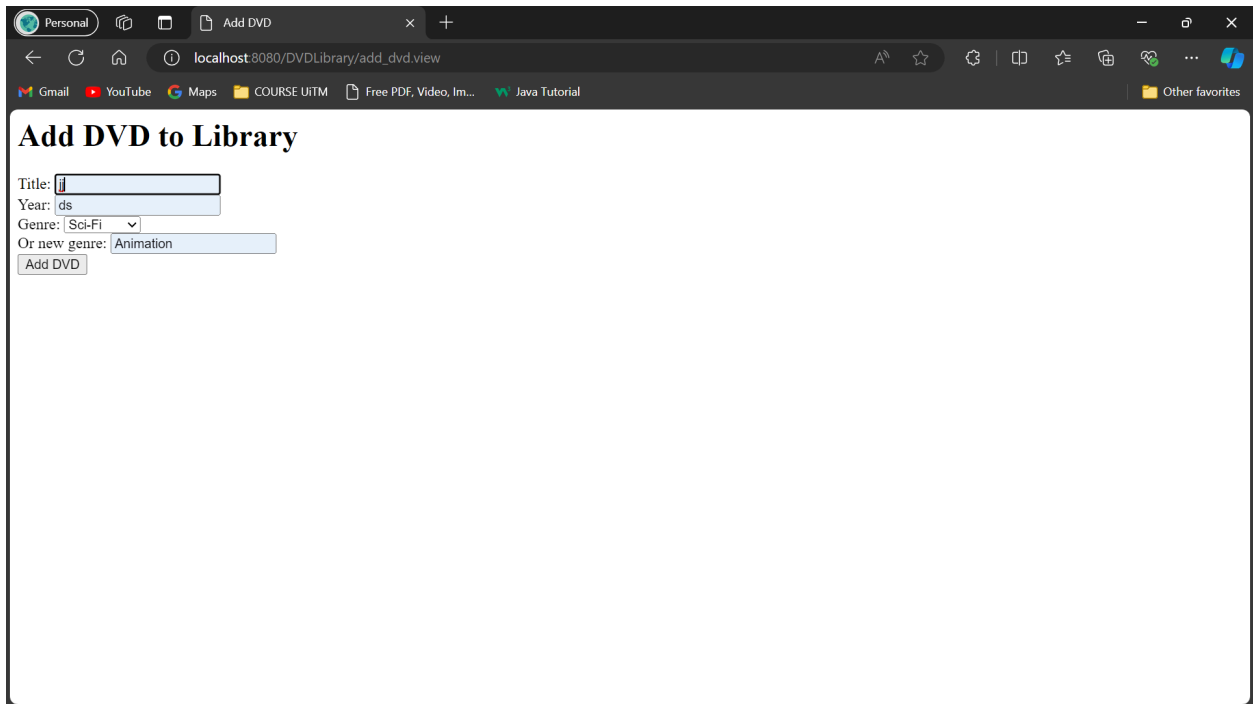

4. Deploy and test the web application

Task 3: Repopulating Form Data (this task is to redisplay entered data by if errors occur in data entry)

Deploy and test the web application

A screenshot of a web browser window. The address bar shows 'localhost:8080/DVDLibrary/add_dvd.view'. The page title is 'Add DVD to Library'. The form contains the following fields:

- Title:
- Year:
- Genre:
- Or new genre:
-
